

Year 7 Catch- Up Funding

Year 7 Catch up Funding was withdrawn by the government with immediate effect when the Covid Catch-up funding was announced.

Covid Catch- Up Funding

We have allocated enhanced funding to:

- Assess every pupil in reading and spelling (bought in service) to inform targeted intervention
- Provide increased intervention in English and Maths to pupils who have been identified as regressing over the lockdown period
- Whole school training in teaching phonics so that every member of staff can effectively support pupils with reading
- Staff training to provide a whole school weekly reading programme
- Resources for KS4 pupils to engage in weekly revision sessions
- Increased capacity in our therapeutic teams to react to individual and ongoing Covid related trauma and wellbeing
- Boost staffing in response to permanent school staff needing to isolate for extended periods of time
- Provide staff with access to Educational Psychologist to support good mental health and well-being
- Purchase of teaching aids so that teachers can lead in a socially distanced way without impacting on pupils' learning experience (e.g. visualisers)
